**Assessing functions and competencies: A model and system implementation**

(2016) *2015 IEEE 7th International Conference on Engineering Education, ICEED 2015*, art. no. 7451493, pp. 59-63. Cited 2 times.

**Abstract**

In order to assess an institute's mission and objectives, it is essential to have a framework for systematic collection, storage and analysis of course assessments for the students within the programs offered by the institute. This paper demonstrates such a framework and provides results from a Data Management System application to a KSA university as a case study. © 2015 IEEE.
