Time: 12:00 pm to 1:00 pm
Venue: Main lecture hall

Keynote Address

Invited Lectures from experts

1. *Dr. T.R. Nair*
2. *Zafar Kazimi*

Networking Academy courses cover a range of topics based on the student interest and goals.

IT Essentials: This introduction to PC hardware, software, and network operating systems prepares students for CompTIA A+, EUCIP ICT Administrator, and CompTIA Server+ certifications and entry-level ICT support careers.

CCNA Discovery: This curriculum teaches networking based on application, covering concepts based on the types of practical networks students may encounter from home and small offices, to more complex enterprise models,. Student learns the basic of routing, switching, and advanced technologies to prepare for Cisco CCENT and Cisco CCNA certifications and entry-level networking careers.

CCNA Exploration: This curriculum teaches networking based on technology, covering protocols and theory at deeper levels reflective of university practices, Students learn the basic of routing, switching, and advanced technologies to prepare the CCNA certification and entry-level networking careers.

Cisco Networking Academy Program: Cisco Networking Academy program teaches hundreds of thousands of students worldwide to improvise their skill in building, Designing and Maintaining Network. These programs help the students in improvising their career prospects to meet the global demands in the field of Networking. The Cisco Networking Academy has over 10,000 Academies running in 165 countries.

Program Delivery: Networking Academy delivers a comprehensive, 21st century learning experience to help students develop the foundation ICT skills needed to design, build, and manage networks, along with career skills such as problem solving, collaboration, and critical thinking. Student's complete hands-on learning activities and network simulations to develop practical skills that will help them fill a growing need for networking professionals around the world.

“Education is the most powerful weapon that you can use to change the world”

-Nelson Mandela
