<p>Summer 2016/2017</p>	<p>2017 MEPI-SLP Alumni</p>	<p>Aiming to advance stability and prosperity in the Middle East and North Africa (MENA), the Middle East Partnership Initiative (MEPI) program supports governments and their citizens to achieve shared political, economic and stability objectives.</p> <p>The Student Leaders program offers outstanding undergraduates from across the MENA region an intensive leadership training course of approximately 6 weeks in the United States. The program emphasizes lessons in participatory governance and the application of leadership skills.</p> <p>The Student Leaders program is a rigorous exchange program for up to 120 undergraduate students from the Middle East and North Africa. Students are divided among U.S. academic institutions where they develop leadership skills and expand their understanding of civil society and participatory governance and how both may be applied in their home communities. Participants have the opportunity to meet their American peers, engage in local community service activities, and observe and take part in the governmental process on the local, state, and federal levels. The program includes academic coursework, as well as study tours to various regions of the United States. Upon completion of the U.S.-based program, participants are mentored by the program implementer to leverage their experiences through sponsored alumni activities designed to effect positive social change in their home countries approximately 6 months after the U.S. portion of the program. A follow-on training seminar is generally held in the region upon completion of the U.S.-based program.</p> <p>June 27 – August 1, 2018, USA</p>	<p>Students:</p> <p>Ahmad Al Zayer, 201500211</p> <p>Farah Al Ugaili, 201400882</p> <p>Dana Al Moqbel,</p>

<p>Spring 2016/2017</p>	<p>The First IEEE GCC SYP Congress 2017</p>	<p>The word congress is originated from the Latin word congressus, which is an off-spring of the word congređi; con- meaning together and -gređi meaning walk, giving us “walk together” or “meet”. And On the 7th and 8th of May, 2017, IEEE's youth of the GCC got to “walk together” in to the huge halls of Gulf Convention Center, Bahrain, where the first of its kind in the region, IEEE GCC SYP Congress, was held in conjunction with the 9th IEEE-GCC Conference & Exhibition.</p> <p>It all started when a group of bright individuals being the UOB and KFUPM IEEE student branches, and both the Young Professionals of IEEE Bahrain and Saudi Arabia Sections, decided to join powers and be a part of organizing an event that will gather youth of the area together. Their hard work paid off eventually, when it was time for the event to come through.</p> <p>The 2-day event was targeted at the students and young professionals of the region but was gladly unbounded by that target. The congress was a welcoming host of more than 300 students and professionals that are focused outside the GCC as well, which added variety to what the congress was offering. It was admirable as well as delightful to see young minds come together to share ideas, success stories, future plans and a lot more with such passion and enthusiasm.</p> <p>Four CCES students with one faculty advisor has attended in the First IEEE GCC SYP Congress on May 07 – 08, 2017 in Manama, Bahrain</p>	<p>Students:</p> <ol style="list-style-type: none"> 1.
