INTRODUCTION

Choosing interior design, as your major at PMU would be one of the best decisions one could make. The profession of interior design addresses aesthetic, psychological, safety, and environmental issues impacting the built environment. It is an exciting field that requires dedication, hard work and learning an extensive knowledge base that reaches far beyond basic rearranging of furnishings. It is a fascinating career that allows the professional to work with clients to reconfigure space and improve its use as well as select appropriate colors, lighting, materials, etc. to create innovative and beautiful environments that take into consideration the health, safety and welfare of the occupants or users of the space. The program, available to women only, consists of 126 credit hours of classes over four years.

PROSPECTIVE STUDENTS

Female students, who are interested in art, design and are good with numbers and math, will flourish in this major.

The program has:

- ↳ Innovative, technology-infused and student-centered learning environment.
- ↳ Top quality programs and curricula that caters to current market demands and also prepares for future challenges.
- ↳ Practice focused curriculum that prepares students for professional work in the field of Interior Design.
- ↳ Small class sizes and modern studios.

PROGRAM OBJECTIVES

The Interior Design Program at PMU recognizes the value of cultural diversity as well as Islamic traditions and advancement of Saudi cultural and social values; acknowledges the importance of sustainability, technology and creativity; and educates future leaders and professionals who will contribute to the community and economic development of the KSA through designing interior environments demonstrating an awareness of the health, safety and welfare of the public.

CAREER OPPORTUNITIES
