INTRODUCTION

The mission of the Management Information Systems program at Prince Mohammad Bin Fahd University is to promote high-quality education and knowledge development by fostering an engaged learning environment. We prepare our MIS graduates with the business and technical knowledge to excel as developers and systems analysts within any organization. Our program focuses on important business and analytical skills, ethics, and technical knowledge today's student needs to succeed in the rapidly changing information systems and analytics fields throughout the world.

Our Goals include:

- ↳ Highly educated students who possess the comprehensive knowledge and soft skills needed for long-lasting, successful professional business careers.
- ↳ Commit to a process of continuous improvement to demonstrate high academic quality and adherence with international standards as articulated by targeted globally significant accreditation agencies, and will develop an academic brand that earns international recognition.

WHY MIS?

- ↳ Rapidly growing population to accommodate young aspiring students and growing knowledge-based industries
- ↳ Market demand, though public universities have a tremendous advantage in terms of cost, PMU offers quality programs with different powerful instructional methodologies and strategies
